BOND TALKS GIVEN IN NORWICH MILLS

Reports Made to Liberty Loan Committee Meeting—House to House Canvass Next Week Expected to Produce Big Results—Difficulty About Getting Music For Parade of School Children.

Encouraging results from talks given in the mills of the city to foreign speaking workers, referring especially to the Polish employees, who have not understood what the Liberty loan and bonds meant, were reported to the Liberty loan committee at its meeting on Thursday afternoon at 4 o'clock in the directors' room of the Norwich Savings Society. Chairman Charles H. Butts presided.

It was mentioned that there seemed to be a necessity for making the foreign speaking workers understand the difference between the investment in the Liberty bonds and the contributions to some other campaigns that had been made by the Liberty loan committee. A few brief talks had been made by Martin Kozycski to the employees in the mills had been productive of good results. On Monday there is to be a meeting of the employees at the Falls mill where the mill management will arrange to bring them all together at noon hours and afford every facility for Mr. Kozycski to have the time he needs to make the matter clear to the workers. The same plan will be followed in other industrial plants and probably with other nationalities. It was also mentioned that there is to be a mass meeting for the Polish people in a few days at the Falls mill. Mr. Kozycski will explain the Liberty Bonds. This report was made by Robert H. Plisk of Providence, special representative of the Federal Reserve Bank of Boston.

School Superintendent E. J. Graham reported that so far it had been found difficult to arrange anything about the band for the parade of school children and the Shore Line Trolley company had stated to him that regulation of the parade of school children would not allow them to furnish three special cars which it was considered would be needed for transportation of the children. The committee was continued.

Walter F. Lester reported that 28 of the real estate and insurance agents had subscribed, one of them twice, Arthur F. Libby reported that most of the lawyers had subscribed, and reports of a good spirit shown were made by Robert McNeely for the workingmen, F. B. Rickerson for the manufacturers, C. H. Rickerson for the millers, O. E. Wolf for the merchants, and Mrs. E. W. Higgins for the women.

Chairman Butts reported on sending letters to corporations which have industries located here although their head offices may be in another city in which he invited them to give their Norwich plants credit for a proportion of whatever subscription the corporation might make. He said the answer had been received from the American Telephone and Telegraph company, which would receive a good addition to its subscription list in this way.

Thomas H. Seckley made an interesting report of the house to house canvass that is to be started Sunday and said that the teams had all been formed of earnest and interested workers and that they have made their determination to reach the people and miss no one. He predicted that the house to house canvass would show a record in the city and that this prophecy by special representative Plisk.

Mrs. E. W. Higgins brought up the suggestion that of the 1000 workers of theatres would be a valuable adjunct to the campaign where the women might be in attendance to solicit subscriptions. Mr. Libby stated that this plan was endorsed by the vote of the committee.

Chairman Butts reminded the committee that the house to house canvass is to take part in the parade on Saturday.

Those attending the meeting were Chairman Butts, J. Leavens, Frank Heppstead, W. H. Allen, O. E. Wolf, E. J. Graham, C. H. Plisk, N. A. Gibbs, J. C. Averill, W. F. Lester, T. H. Beck, H. R. Branch, Robert McNeely, Mrs. E. W. Higgins, Mrs. A. H. Chase and Miss S. Whiffred MacAdam, secretary of the committee.

LIBERTY LOAN REACHES TOTAL OF \$341,700.

Reports from Banks Indicate Drive is Gaining Momentum in City.

At the close of banking hours on Thursday Chairman C. R. Butts of the Liberty loan drive announced that the total amount of subscriptions for the Norwich district amounted to 1,339 for a total amount of \$341,700.

At a meeting held in the directors' room of the Norwich Savings society representatives of the various local banks reported encouraging progress. Nathan A. Gibbs of the Thames National bank reported that his bank had secured twice as many subscriptions as in previous drives and had a great number of prospects. Frank Heppstead of the Commercial bank stated that the subscriptions taken were far ahead of the previous campaign. The Dime bank through Director F. H. Chase reported that the subscriptions were far ahead of the previous drive for the same number of days. Charles H. Plisk of the Merchants National bank reported that his bank had secured three times as many subscriptions as in the last campaign and that the amount was three times as large. The National bank, according to a statement made by W. H. Allen, the subscriptions number more, but the amount is not as large as in the previous loan.

While the majority of the banks have been successful in securing more subscriptions than in the last drive there is a lack of subscriptions for large amounts, which goes to show that the people of Norwich are taking a more active interest in the loan than in the previous loan, and that it is the man of moderate means who is doing the subscribing rather than the man of wealth. Each bank woman in the hand should subscribe according to his or her means and if each one does this in this land of prosperity, the amount will be large.

FORMING JUNIOR FOOD ARMY IN SCHOOLS.

Will Be Work Next Week—Also Urge Potato Eating Week.

Next week in all the schools of the city will see the formation of a junior food army, according to arrangements made on Wednesday afternoon at a meeting at Broadway school with Supt. E. J. Graham held with the principals.

The pupils desiring to become a member of the junior food army will be asked to sign a card and there will also be the signature of the parent or guardian to be obtained.

It is the purpose of the junior food army to bring the boys and girls into production and conservation work, and it is believed that an army of over 50,000 will be enrolled in the state, raising and conserving food products valued at from \$50,000 to \$1,000,000.

On the production side their activity will be given to the raising of potatoes, general garden produce, poultry, pigs, calves and sheep. On the saving side it will be through home cooking, canning, drying, salting or otherwise preserving.

The teachers in the Norwich schools are also to devote next week to the potato pledge, asking the children to eat potatoes rather than wheat next week and so make this a great wheat saving week.

The formation of the Junior Red Cross was also discussed at the meeting and will be taken up again as soon as necessary data and supplies have been received.
